Water Pollution Control; Approval of Application by the State of Florida to Administer the National Pollutant Discharge Elimination System (NPDES) Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Approval of application.

SUMMARY: On May, 1, 1995, the Regional Administrator for the Environmental Protection Agency (EPA), Region IV, approved the application by the State of Florida to administer the National Pollutant Discharge Elimination System (NPDES) program for regulating point source discharges of pollutants into surface waters within the State. The State NPDES program, as authorized, is a phased NPDES program encompassing permitting for: (1) domestic discharges; (2) industrial discharges, including those which also have storm water discharges; and (3) the pretreatment program for Publicly Owned Treatment Works. Storm water discharges from municipal separate storm sewer systems (MS4's), individual storm water-only discharges, storm water general permits, and Federal facility discharges are to be phased in by the year 2000. Further, the State of Florida is not being authorized to administer a sewage sludge management program.

EFFECTIVE DATE: May 1, 1995.

FOR FURTHER INFORMATION CONTACT: Ms. Dee Stewart, Environmental Engineer, Permits Section, U.S. EPA Region IV, 345 Courtland Street, NE, Atlanta, Georgia, 30365, 404/347-3012, ext. 2928. The administrative record (which comprises approximately 1650 pages) can be obtained from the Florida Department of Environmental Protection (FDEP) office in Tallahassee, Florida or the EPA office in Atlanta, Georgia at a minimal cost per page.

SUPPLEMENTARY INFORMATION: The Governor of Florida requested NPDES program approval on November 21, 1994, by submitting a complete program application. Several modifications were made to the application based on public comments and discussions between the EPA and FDEP, and as allowed by Federal regulations. These modifications include the clarification of Section III.C. and additions of Attachments A, B, and C, to the Memorandum of Agreement (MOA). Attachment A, represents permits under active Federal enforcement at the time of authorization which EPA will complete the enforcement action but FDEP will assume permitting, compliance, and future enforcement authority for. Attachment B represents permits for which an evidentiary hearing has been requested at the time of program authorization and EPA will retain full jurisdiction until the matter is resolved. Attachment C represents certain facilities as agreed upon by FDEP and EPA where EPA will retain full jurisdiction of these NPDES permits following authorization. Section IV.C.1.a of the MOA was changed to
